- 1) Go forward with Free Public Transportation for all LAUSD students when they return to school
- 2) Provide free public transportation for all MTA riders until December 31.
- 3) After that, we hope you would consider making free transit permanent. If that is not accepted, we ask you to agree that fares will never be higher than \$50 a month for an unlimited ride Bus/Rail pass and 50 cents with free transfers for one way rides
- 4) We ask you to stop all fare collections to avoid inevitable anti-Black racial profiling, and allow all passengers to pay on the honor system so that those who cannot afford to pay will not be harassed, ticketed, or arrested.

We appreciate the steps you are already moving in that direction and urge you to grasp the full urgency of the COVID 19 reality and its aftermath and through free public transportation, make the civil rights, mobility, and climate justice objectives for your passengers and the larger public the highest priority.
